NISC's Remboldt Named to the Board of the Information Technology Council of North Dakota

Mandan, N.D. --- Doug Remboldt, Vice President of Technical Services for National Information Solutions Cooperative (NISC), has been named as Vice President on the Board of the Information Technology Council of North Dakota (ITCND). Remboldt was elected to the 2009-2010 ITCND Board during the March 19 board meeting.

"We are very pleased and proud to have Doug represent our organization as well as the industry," stated Vern Dosch, NISC President and CEO. "NISC has supported the mission and vision of ITCND since its inception."

"I am excited to work with the talented professionals from across the state that comprise ITCND. Our mission is the same – to actively encourage the use, growth and development of information technology in North Dakota. I feel the future looks very bright for our state in regards to IT," said Remboldt.

About NISC

For over 40 years, NISC has delivered advanced solutions, services and support to more than 510 rural utilities, independent telephone companies and Fortune 100/500 corporations in 47 states and American Samoa. NISC has facilities in both Mandan, N.D. and Lake St. Louis, Mo. and employs over 740 professionals. Additional information about NISC may be found at www.nisc.coop.

About ITCND

ITCND is the leading information technology advocacy organization in the state. It was founded by the North Dakota business, government and education leaders to encourage the use, growth and development of information technology in North Dakota. For more information, visit www.itcnd.org.
